

DUAL CABLE CROSS

PC1801

True Movement Freedom

Balanced Resistance

High Exercise Density

User-Friendly Setup.

Safe, Controlled Loading

The BodyKore Dual Cable Cross is built for facilities and serious home gyms that need maximum exercise variety without dedicating floor space to multiple machines. Its dual articulating arms move independently in two planes, allowing precise cable positioning for natural movement patterns and consistent resistance across a wide range of training styles.

The Dual Cable Cross is constructed with heavy-duty steel framing designed for constant commercial use. Precision pulleys and cables ensure smooth travel and long-term reliability under load. The articulating arms are engineered for stability throughout their range of motion, maintaining alignment and control even during unilateral or high-tension movements.

Dimensions

97" x 141" x 98"

Weight

968lb

DUAL CABLE CROSS

PC1801

Warranty	
STRENGTH WARRANTY (NORTH AMERICA ONLY)	
FRAME (NOT COATINGS)**	LIFETIME
WEIGHT STACKS	10 YEARS
PULLEYS	10 YEARS
PIVOT BEARINGS	10 YEARS
OTHER ITEMS NOT SPECIFIED	3 YEARS
UPHOLSTERY / CABLES / SPRINGS / GRIPS	1 YEAR
ACCESSORIES	6 MONTHS

True Movement Freedom

Dual articulating arms adjust vertically and horizontally, supporting linear, diagonal, and rotational movements.

Balanced Resistance

Two 200 lb weight stacks with a 2:1 pulley ratio provide smooth, controlled resistance that works for both strength training and rehabilitation.

High Exercise Density

Replaces multiple single-purpose machines with one compact, multi-user solution.

User-Friendly Setup

Quick adjustments make it easy for members of different sizes and skill levels to train effectively.

Safe, Controlled Loading

Selectorized stacks reduce setup time and minimize risk compared to free-weight alternatives.
